

SPEED SORT - HANDOUT

NAME: _____

www.MrNale.com

Directions: For this activity you will need the Word Tiles. Select a member of your group to be the first player, and another member to be the time keeper. Each member of the group will have the chance at both roles. To play the game, one person randomly picks 10 words from the Word Tile container and places them face down. When this is completed, the time keeper should start the stopwatch and at that point the player flips over the 10 words and puts them in alphabetical order as fast as possible. When that person has their time, the roles should rotate until everyone has had a chance to play. The person to complete the task the fastest is the winner! Please circle their name and time when you are finished.
